

Good afternoon,

Currently I have just completed my first year of engineering studies at ECAM Engineering School in Rennes, France and am looking for a job this summer. As part of my engineering school's graduation requirements each student is obliged to work overseas for a period of at least 3 months. I have to do it this summer (June, July and August).

I am interested in working to U.S.A.

I can contact you because it is difficult to find a job when you live on the other side of the Earth and I hope you can help me in this.

I contact you because I am Basque. My name is IMIRIZALDU, and my father's family is from a small village called Imirizaldu on the Basque Country at 60km to Pamplona. Moreover, my mother's family lives in Bilbo. So, my family and me are very committed to our values and our culture. I recognize that it involves being Basque and am very proud to wear these colors.

My resume enclosed give you more information about me if ever you need and I expect a response from you.

Thank you for your consideration.

Sincerely,

Morgane IMIRIZALDU

Engineer student
